Procurement and Vendor Governance Policy

Document ID: APEL-PROC-106 | Owner: Procurement | Revision: 8.2

This page contains the policy-specific controls for sourcing stages.

Sourcing stages

- Technical requirement
- Supplier identification
- Quotation
- Technical evaluation
- Commercial evaluation
- Approval
- Purchase order
- Performance review

Technical evaluation

This page contains the policy-specific controls for technical evaluation.

Technical evaluation

- Datasheet compliance
- Service capability
- Past performance
- Inspection certificates
- Warranty
- Spare-parts support

Commercial evaluation

This page contains the policy-specific controls for commercial evaluation.

Commercial evaluation

- Price
- Delivery
- Payment terms
- Warranty
- Liquidated damages
- Commercial exceptions

Vendor conflicts

This page contains the policy-specific controls for vendor conflicts.

Vendor conflicts

- Vendor claims are supporting evidence, not automatically internal authority.
- Conflicts with controlled internal operating limits are documented.
- Technical authority resolves technical discrepancies.

Confidentiality

This page contains the policy-specific controls for confidentiality.

Confidentiality

• Quotations and negotiations are commercially sensitive.

• Vendor reports remain linked to the sourcing record.

• AI comparisons must cite source documents and avoid inventing missing commercial facts.
