Records Retention and Evidence Policy

Document ID: APEL-DOC-105 | Owner: Document Control | Revision: 4.0

This page contains the policy-specific controls for retention purpose.

Retention purpose

- Support operations.
- Enable audits and investigations.
- Preserve technical history.
- Maintain evidence for approvals and incidents.

Retention schedule

This page contains the policy-specific controls for retention schedule.

Retention schedule

Record	Synthetic retention
Inspection report	10 years
Maintenance work order	7 years
Incident investigation	15 years
Controlled SOP revision	Life of document + 10 years
AI audit event	3 years

Record integrity

This page contains the policy-specific controls for record integrity.

Record integrity

- Preserve original content.
- Retain document ID and revision.
- Record creator and creation time.
- Link AI artifacts to source tasks.

Legal hold

This page contains the policy-specific controls for legal hold.

Legal hold

- Suspend ordinary deletion for records under an authorized hold.
- Record the hold scope and authority.
- AI retrieval should not imply absence merely because a normal time filter excludes a record.

Disposal

This page contains the policy-specific controls for disposal.

Disposal

- Verify eligibility.
- Check for holds.
- Obtain authorization.
- Destroy securely.
- Record disposal event.
