Refinery Industrial Emergency Response & Disaster Management Manual

Document ID:	APEL-MAN-HSE-301	**Effective Date:**	2026-08-01
Revision:	4.2	**Classification:**	CONFIDENTIAL - STRICT PROPRIETARY
Department:	HSE & Process Safety	**Site Location:**	Jamnagar Refinery Complex (JRC)

1. Emergency Response Hierarchy

Establishes Incident Command System (ICS) structure for level 1 (Unit localized), level 2 (Refinery complex), and level 3 (Offsite disaster) events.

2. Hydrocarbon Leakage Response (INC-2025-017 Protocol)

- Automatic or manual activation of area deluge water spray curtains.
- Immediate electrical de-energization of non-explosion-proof field circuits.
- Evacuation to designated upwind assembly muster points.
- Emergency unit depressurization to flare headers.

3. Mutual Aid & Regulatory Notifications

Formal coordination with local municipal fire authorities and statutory notification to Petroleum & Explosives Safety Organization (PESO).
