Refinery Industrial Network Access Control Policy

Document ID:	APEL-POL-SEC-105	**Effective Date:**	2026-08-01
Revision:	3.0	**Classification:**	CONFIDENTIAL - STRICT PROPRIETARY
Department:	Information Security & OT Infrastructure	**Site Location:**	Jamnagar Refinery Complex (JRC)

1. Policy Purpose

Establishes mandatory identity, authorization, and physical access controls across Purdue Enterprise Reference Architecture Levels 1 through 4.

2. OT Network Segmentation (IEC 62443)

- Level 3 (Operations Management) separated from Level 4 (Enterprise Network) by dual unidirectional security gateways.
- Absolute prohibition of direct internet connections to any DCS, PLC, or SIS controller.
- Multi-Factor Authentication (MFA) mandatory for all engineering workstation access.

3. Compliance & Enforcement

Unauthorized hardware connection to OT switchgear results in immediate network port isolation and formal investigation.
